The City of Hamilton is conducting a master planning process for Churchill Park, located at 145 Cline Ave. N., in the Westdale Neighbourhood. The final master plan will guide the future improvements and management of the park. This is the 2nd public information centre to provide an update on this project and to present preliminary concept plans for the park. A concurrent assessment of storm water management requirements and opportunities is also underway. The findings of this assessment are intended to support the park master plan and identify possible drainage improvements for the adjacent neighbourhood. Preliminary findings of this assessment will also be presented.

We are midway through the process and invite you to attend this public meeting and participate in this project by providing your comments. The community is also invited to send their thoughts and comments to the project manager. Project updates are available for viewing on the City's web site at www.hamilton.ca/LAS.
