**Re: Operations of Churchill Lawn Bowling Clubhouse**

Dear Sir or Madam,

On behalf of the Recreation Division for the City of Hamilton, we formally invite you to a presentation and discussion of the operations for the Churchill Lawn Bowling Clubhouse located inside of Churchill Park. The Clubhouse has been identified as an underutilized facility by city staff and the hope is to change that.

The Lawn Bowling Clubhouse is a fantastic facility equipped with a prep kitchen, change rooms and a large recreation space suit able for a variety of activities and events. The front of the building is lined with windows that are scheduled for replacement soon, providing an abundance of beautiful natural light to the space. Due to its versatility the clubhouse has successfully housed community events such as potlucks, Yoga and Pilates classes, and family game nights since 2008. It has also been used in the winter months to support the outdoor ice rink in the park. This facility is a great asset for the community and could be an essential tool for bringing residents together.

In the past the City of Hamilton has successfully partnered with other community groups and service providers to operate city facilities for the benefit of the community and we hope that the Churchill Lawn Bowling Clubhouse can become another one of those success stories. It is our vision to see the building being utilized by the community, operated by the community, and benefiting the community.

Please join us on **Wednesday May 15<sup>th</sup>, 2013 from 7:00 – 8:30 p.m. at the Churchill Lawn Bowling Clubhouse inside Churchill Park** to discuss this vision. With your help we can make it a reality and bring Ainslie Wood and Westdale communities' closer together.

Best Regards,
